Presenting a special Feng Shui slide lecture and discussion

A New Year is like a new doorway.

A New Year offers a new chance to bring who you really are to life.

Are you ready for a new career, a promotion, a relationship, a family, stress free life, more money...?

Feng Shui is an ancestral Asian art of placement, today used by successful corporations, business men and women and well known artists.

With Feng Shui, you bring balance and harmony in your life by balancing the “Chi” energy in your living space. Feng Shui practitioners have learned to create harmonious environments using natural elements, which by their very design, attract the best possible **health, wealth** and supportive **relationships**.

Marie Burgos, Feng Shui Expert and Interior Designer for Manoblu Design explains how to create a home or office environment that supports and nourishes your life aspirations with the help of Feng Shui.

She you make sure you will be ready for a very “Happy New Year 2009.”
